

INFORMATION ON VAGINAL DEMONSTRATION MODELS

There are various vaginal models available to demonstrate how to use FC2 female condom. The information below lists the different types, how to order them as well as the price. **SUPPORT** has used a selection of the models below in training and demonstration sessions.

If you do not have a model, you can use your hand for demonstration purposes.

- **LINDI Pelvic Model** from Ortho Pharmaceutical is a clear plastic “cut-a-way” model that shows the female anatomy.

Unit charge: \$80

Planned Parenthood of Southern New England
345 Whitney Avenue
New Haven, CT. 06511
+1 203 865 5158 ext. 838

- **The Female Contraceptive Model** can be used to practice inserting female condoms, diaphragms, cervical caps, contraceptive sponges and spermicides. A small cutaway section on one side of the model exposes the upper end of the vaginal canal, helping viewers to see why careful placement of a contraceptive device over the cervix is important. The model comes with a carrying case and lubricant. Contraceptives are not included.

Unit charge: \$144.45
